EXAMINER'S COMMENT, AMENDMENT and REASONS for ALLOWANCE

Information Disclosure Statement

1. The Information Disclosure Statement filed September 30, 2003 contains the document, patent application 10/229,617, which could not be considered and has been "lined-through" because: 1) this document was never publicly published as a PG PUB document (and so, has privacy issues precluding recitation by the examiner on the face of the issued patent), and additionally, 2) this document (now abandoned) is unavailable to the examiner anywhere within in the Office's electronic database system.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

3. Authorization for this examiner's amendment was given in a telephone interview with Paul A. Mendonsa, Reg. No. 42,879, on 17 March 2006.

4. The application has been amended as follows:

IN THE SPECIFICATION

paragraph [0011], third sentence, remove the language,

"or transmitting";

paragraph [0011], fourth sentence, remove the language,

"electrical, optical, acoustical or other forms of propagated signals (e.g., carrier waves, infrared signals, digital signals, etc.),".

IN THE CLAIMS

In Claim 20, first line, after "machine-readable" insert "--medium--";

In Claim 20, first line, after "claim 19" remove "medium".

REASONS for ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

In independent claims 1, 9, 14 and 19, directed towards a method, an apparatus, a system and a machine-readable medium, the following features taken in combination with the remaining limitations of the independent claim are not found in and or are not obvious in view of the prior art of record,

Claim 1,

"adapting generation of page close messages based upon the effectiveness of the page close messages";

Claim 9,

"page close logic to adaptively generate, based upon the effectiveness of the page close determinations, a page close message";

Claim 14,

"a memory controller to adaptively make a page close determination for a memory transaction based upon effectiveness of one or more prior page close determinations";

Claim 19,

"adaptively generating, based upon the effectiveness of the page close messages, page close messages";

where in the above claims the terminology "effectiveness" has been interpreted as having Applicant's scope of meaning disclosed in the Specification, paragraph [0022], first sentence, paragraph [0027], first sentence, and paragraph [0029], first sentence.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Elmore whose telephone number is (571) 272-4436. The examiner can normally be reached on Mon-Fri from 9:30-6:00.

Art Unit: 2185

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Kim can be reached on (571) 272-4182. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
